ENGINEERING

The International Telematic University UNINETTUNO takes origin from the model of NETTUNO - Network per l'Università Ovunque - a consortium of 43 Italian and foreign universities with which, since 1992, thousands of Italian and foreign students obtained a distance university degree thanks to television and the Internet; and from the international success of Med Net'U (Mediterranean Network of Universities) Project, funded by the European Commission in the framework of the EUMEDIS Programme, aimed at realising a Euro-Mediterranean Distance University, through a network of 31 universities of 11 countries of the Euro-Mediterranean Area (Algeria, Egypt, France, Jordan, Greece, Italy, Lebanon, Morocco, Syria, Tunisia and Turkey).

## University for Refugees

The history of UNINETTUNO, its international vocation, the extent of the migration phenomenon and the inadequacy of the responses provided by our society, unable to recognize the value of the people who arrived, inspired the creation of the

University for Refugees, providing to all refugees and migrants free access to the University portal, where they, from anywhere in the world, can enroll and attend graduate, professional and language courses. The University for Refugees - Education without Borders allows:

- Free enrolment to Degree, Master's and professional qualification courses at the International Telematic University UNINETTUNO;
- Recognition of qualifications already obtained in countries of origin by migrants and refugees, according to European standards;
- Recognition of professional skills;
- Language learning: Italian, Arabic, English, German, Spanish, French, Greek and Portuguese;
- Access to online services related to health and mutual rights and duties.

## Facts and Figures

Today, **15380** refugees downloaded our free app for learning the Italian language. **783** refugees signed up for the University for Refugees portal to use the various services offered.

Migrants and refugees enrolled to our program are the majority **men (93%)**, between 18 and 34 years (90%), coming from **28 different countries** (Afghanistan, Saudi Arabia, Belarus, Burundi, Cameroon, Ivory Coast, Eritrea, Gabon, Gambia, Jordan, Guinea, Honduras, Libya, Mali, Niger, Nigeria, Pakistan, Palestine, Central African Republic, Democratic Republic of the Congo, Russia, Senegal, Syria, Somalia, Togo, Turkey, Ukraine, Uganda).

Students reside in reception centers in Saudi Arabia, Benin, Cameroon, Germany, Ghana, Italy, Lebanon, Rwanda, Turkey.

## A Global Network of Knowledge

The Web made the UNINETTUNO University known to these students. In the didactic cyberspace they can find digitalized engineering lessons in Arabic, English and French, given by professors from different universities in the Arab world.

In particular, videolessons and digital contents production involved Syrian professors from the Universities of Damascus, and the University of Aleppo, now completely destroyed by the war, among which we mention for example:

- **Fadel Sukkar** (professor of Computer Science, University of Aleppo),
- **Mohamed Kheir Ahmed** (professor of Mathematical Methods for Engineering, University of Aleppo),
- **Ayman Hamadeh** (professor of Databases, University of Aleppo),
- **Ousamah Douedari** (professor of Electrical Engineering, University of Aleppo),
- **Muhammad Gh. Aljalali** (professor of Economics for Engineering, University of Damascus),
- **Fawwaz Mufdi** (professor of Electronic Measurements, University of Damascus).

These are professors who had to leave their universities because of wars and violence, and can no longer teach. UNINETTUNO has digitized and stored their scientific knowledge on the Internet, and made it available to their students who no longer have opportunity to meet them and attend their lectures in their countries of origin. Giving these opportunities to refugees and immigrants means recognizing their dignity, and giving them the courage to move forward with confidence in humanity.

### Introduzione alla Programmazione

Lezione n.3: Architettura del Computer  
Docente: Prof. Fadel Sukkar

Videolezione

Lezione 1: Argomenti

- ما هو الحاسوب
- مكونات الحاسوب
- العناصر الصلب
- البرمجيات

Materiale didattico relativo a questa lezione

- Slides
- Libri e articoli
- Multimedia
- Bibliografia
- Sitografia
- Laboratorio virtuale
- Esercizi interattivi
- Esercizi
- Chat svevia
- Classi interattive svevia
- Aula Virtuali Svevia

### Electronic Measurements

تجربة: الأساسيات نظرية القياس (1)  
الأستاذ: فؤاد مخلصي

تجربة

مواد تعليمية متعلقة بهذا الموضوع

- الفيزياء
- الخدوشات
- القياس عمومية
- الزاوية
- بداية الترميز الإلكتروني
- النشر الإلكتروني
- ترميزات ثنائية
- الترانزستور
- الترددات المنخفضة
- الخدوشات ثنائية
- حالات القياسية المبردة

التجربة 1: موضوعات

### Basi di dati

Lezione n.3: Relational model structure  
Docente: Prof. Ayman Hamadeh

Videolezione

Lezione 3: Argomenti

- الترميز المنطقي
- علاقات وجودية
- علاقات مرجعية
- علاقات وظيفية
- معلومات
- معلومات
- معلومات
- معلومات

Materiale didattico relativo a questa lezione

- Libri e articoli
- Multimedia
- Bibliografia
- Sitografia
- Laboratorio virtuale
- Esercizi interattivi
- Esercizi
- Chat svevia
- Classi interattive svevia
- Aula Virtuali Svevia

### Economics and business management

Lesson n.1: Introduction of Economics for Engineering  
Professor: Prof. Muhammed Gh. Aljafali

Videolezione

Lesson 1: Subjects

- تعريف الاقتصاد
- تعريف الهندسة
- الاقتصاد الهندسي
- محتوى المبررس

Didactic Materials related to this Lesson

- Slides
- Books and articles
- Multimedia
- Bibliography
- Sitography
- Virtual laboratory
- Interactive exercises
- Exercises
- Post Chat sessions
- Post Interactive classes
- Virtual classrooms

### Elettrotecnica 1

Lezione n.1: القواعد الأساسية - قانون أوم  
Docente: Prof. Ousamah Douadari

Videolezione

Lezione 1: Argomenti

- تعريف التيار الكهربائي
- القوانين
- قانون أوم
- الاستنتاجات القوية

Materiale didattico relativo a questa lezione

- Slides
- Libri e articoli
- Multimedia
- Bibliografia
- Sitografia
- Laboratorio virtuale
- Esercizi interattivi
- Esercizi
- Chat svevia
- Classi interattive svevia
- Aula Virtuali Svevia

### Analisi matematica II

Lezione n.1: Series of Numbers  
Docente: Prof. Mohamed Kheir Ahmed

Videolezione

Lezione 1: Argomenti

- التسلسلات ذات الحدود الحقيقية
- التسلسلات العددية الحقيقية
- مقدمات عامة عن نظرية التسلسلات العددية

Materiale didattico relativo a questa lezione

- Slides
- Libri e articoli
- Multimedia
- Bibliografia
- Sitografia
- Laboratorio virtuale
- Esercizi interattivi
- Esercizi
- Chat svevia
- Classi interattive svevia
- Aula Virtuali Svevia

## Awards Received

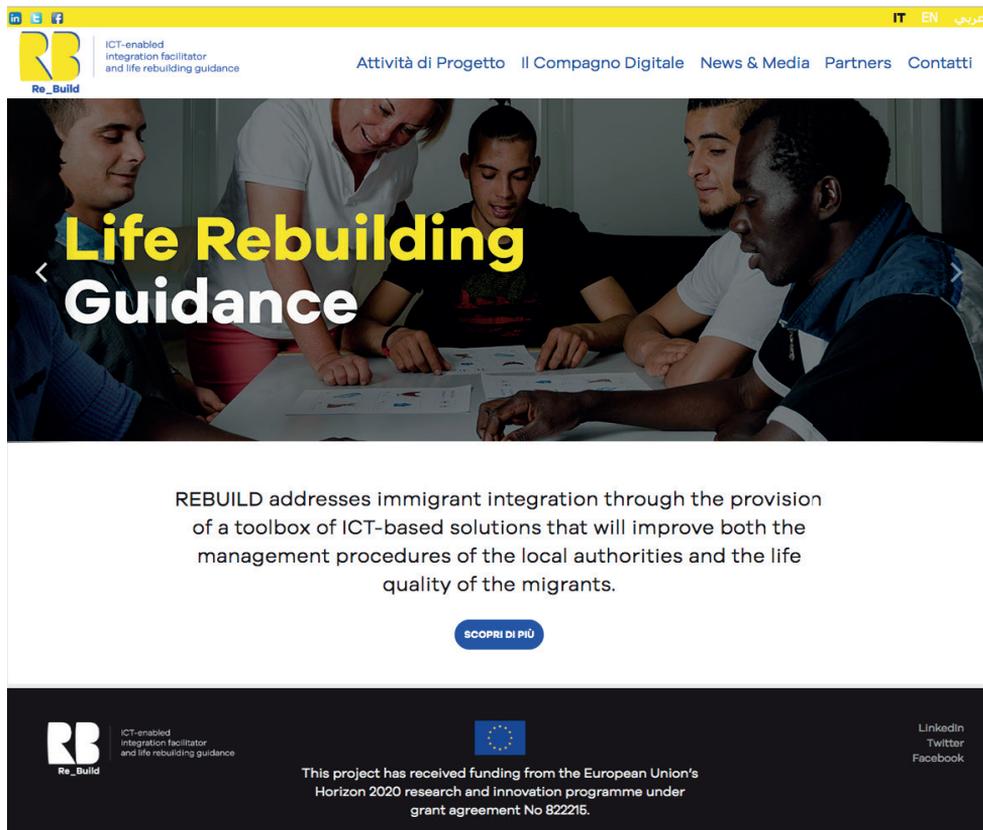

University for Refugees has won numerous international awards.

- **UNESCO** 2017 included Uninettuno among the active Universities to reach the 17 SDGs of the UN 2030 agenda.
- Also in 2017, UNINETTUNO received the honorable mention at the International E-Learning Award for its "University for Refugees" initiative.
- In December 2017 eLearning Inside included UNINETTUNO and University for Refugees among the **5 Top Stories worldwide in Higher Education Elearning.**
- In January 2019, UNINETTUNO was invited to join the Universities #JoinTogether Network, a network of Universities from around the world, created to share ideas and best practices aimed at creating the Sustainable Development Goals (SDG)

## Research and Innovation

The activities carried out and the international network created created REBUILD, a project funded by the European Commission under the Horizon 2020 framework program, and coordinated by UNINETTUNO.

The image is a screenshot of the REBUILD website. At the top, there is a yellow navigation bar with social media icons (LinkedIn, Twitter, Facebook) on the left and language options (IT, EN, عربي) on the right. Below the navigation bar is the REBUILD logo and the text "ICT-enabled integration facilitator and life rebuilding guidance". The main navigation menu includes "Attività di Progetto", "Il Compagno Digitale", "News & Media", "Partners", and "Contatti". The central part of the page features a large image of a diverse group of people sitting around a table, looking at documents. Overlaid on this image is the text "Life Rebuilding Guidance" in large, bold, yellow and white letters. Below the image, there is a white text box with the following text: "REBUILD addresses immigrant integration through the provision of a toolbox of ICT-based solutions that will improve both the management procedures of the local authorities and the life quality of the migrants." Below this text is a blue button with the text "SCOPRI DI PIÙ". At the bottom of the page, there is a dark grey footer containing the REBUILD logo, the European Union flag, and the text: "This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 822215." On the right side of the footer, there are icons for LinkedIn, Twitter, and Facebook.

The research project aims to create an artificial intelligence system that enables global Big Data to be analyzed on the reality and needs of immigrants and refugees to provide valid tools for public administrations and policy makers at a global level.

## Some Testimonials

 **Harout**, Syria, enrolled in the Bachelor's Degree in Information and Communication Technologies Engineering

*"I am 30 years old and I was born in the city of Aleppo, in Syria. I was studying at the University of Aleppo and on the UNINETTUNO portal I found the video lessons of some of my professors at the University of Aleppo that today I no longer know where in the world they are .. I am currently entitled of political refugee status in Lebanon, and in the hope that peace will return to my country, thanks to UNINETTUNO University for Refugees I will be able to realize my dream: to complete the course of study undertaken in Syria, earning a degree recognized in Italy and in Europe. I thank this University that gave me the opportunity to resume studying to improve my life and leave the past behind. "*

 **Kokou**, Gabon. Master in Marketing and Business Management (already graduated in Marketing and Economics in your country).

*"This study experience with UNINETTUNO is like a watershed between past, present and future, it is the most beautiful thing that has happened to me since I arrived in Italy across the Mediterranean."*

 **Diakaria**, Mali. Bachelor's Degree in Media and Communication.

*"I am a refugee from Mali but I studied in Senegal until last year, now I am a refugee. Thanks to the opportunity to continue studying that UNINETTUNO has given us for me and for many young people in my same condition, a new hope for a better future has opened up. "*

 **Devon**, Nigeria. Bachelor's Degree in Media and Communication

*"Attending the University with UNINETTUNO is giving a new meaning to my life. I hope one day to look into the eyes of young people from all over the world, refugees, migrants, and to be able to tell them that no matter their status and the violence they flee from, everything is in the mind and in the heart and if you believe in your mission in the world, sooner or later you will reach your goals."*

The students of INTERNATIONAL TELEMATIC UNIVERSITY UNINETTUNO come from 167 different COUNTRIES across the world
